

**DEPARTMENT OF THE ARMY
U.S. Army Corps of Engineers
Washington, DC 20314-1000**

EM 1110-2-2007

CECW-ED

Manual
No. 1110-2-2007

30 April 1995

**Engineering and Design
STRUCTURAL DESIGN OF CONCRETE LINED
FLOOD CONTROL CHANNELS**

Table of Contents

Subject	Paragraph	Page	Subject	Paragraph	Page
Chapter 1					
Introduction			Drainage Provisions	3-3	3-1
Purpose and Scope	1-1	1-1	Continuously Reinforced Concrete		
Applicability	1-2	1-1	Paving	3-4	3-2
References	1-3	1-1	Construction Joints	3-5	3-3
Design Philosophy	1-4	1-1	Expansion Joints	3-6	3-4
Coordination	1-5	1-1	End Anchorage	3-7	3-4
Channel Section	1-6	1-2	Cutoff Walls	3-8	3-4
Safety Provisions	1-7	1-2	Intersecting Channels	3-9	3-4
Aesthetic Provisions	1-8	1-2	Deficiencies in Past Designs of		
Relationship between Design			Paved Trapezoidal Channels	3-10	3-5
Assumptions and Construction			Drainage Layer Construction	3-11	3-5
Practices	1-9	1-2	Maintenance Considerations	3-12	3-5
Computer Programs for			Repair of Damaged Paving	3-13	3-6
Structural Design	1-10	1-2			
Chapter 2			Chapter 4		
General Design Considerations			Special Design Considerations for		
General	2-1	2-1	Rectangular Channels Lined with		
Selection of Channel Type	2-2	2-1	Retaining Wall Structures		
Reinforced Concrete Structures	2-3	2-1	General	4-1	4-1
Drainage Provisions	2-4	2-5	Retaining Wall Types	4-2	4-1
Vehicular Access Ramps	2-5	2-6	Channel Bottoms	4-3	4-1
Control of Water During			Joints in Retaining Walls	4-4	4-1
Construction	2-6	2-6	Drainage Provisions	4-5	4-1
Maintenance During			Structural Design	4-6	4-2
Operation	2-7	2-6	Special Considerations During		
Protection of Private			Construction	4-7	4-4
Property	2-8	2-6			
Chapter 3			Chapter 5		
Special Design Considerations for			Special Design Considerations		
Paved Trapezoidal Channels			for Rectangular Channels Lined		
Introduction	3-1	3-1	with U-frame Structures		
Constructibility of Paving Slabs on			General	5-1	5-1
Sloped Sides of Channels	3-2	3-1	Foundation Considerations	5-2	5-1
			Joints in Concrete	5-3	5-1
			Drainage Provisions	5-4	5-1
			Structural Design	5-5	5-1

Subject	Paragraph	Page	Subject	Paragraph	Page
Special Considerations during Construction	5-6	5-2	Appendix C Drainage System Designs for U-frame and Trapezoidal Channels		
Appendix A References		A-1			C-1
Appendix B Computer Programs		B-1	Appendix D Equations for Continuously Reinforced Concrete Pavement		D-1
